

Pre-Development Enquiry

Single Unit - Domestic

Pre-Development Enquiry (PDE) application needs to be submitted as soon as is practicable and prior to any formal planning submission.

Please complete all sections on the application form, in order to avoid delay/return of your application.
Please refer to our guidance notes before completing your application.

This form should be used when requesting information about the capacity and availability of our existing water and wastewater infrastructure for single houses which require a connection to both the sewer and water network.

The Pre-Development Enquiry is required to determine if there is sufficient capacity within the water and wastewater network to accept the proposed dwelling. NI Water will confirm if there is capacity within the water and wastewater network to accept the proposed dwelling and advise on next steps. If a constraint is identified within the existing system, NI Water will advise (where applicable) of any requirement for the developer to apply for an Impact Assessment. [The PDE Response will be valid for a period of 18 months.](#)

All applications **MUST** include the following:

- A Site Location Plan 1:2500 map (LPSACE map will suffice) with the site boundary clearly indicated in **red** and relative to an existing feature. Any other land owned by the applicant should be shown with a **blue** line around its boundaries, and if a public right of way exists within or adjoining the site, it should be outlined in **green**.
The 12 figure OS Grid Reference (x,y coordinates) of the approximate mid-point of the site is required.
- Planning references of all extant and live planning applications (details to be entered in Planning Permission Box below)
