

# BEAT THE FREEZE

## Protect your water pipes this winter.

This winter protect your business from cold snaps by insulating exposed water pipes. If a frozen pipe bursts inside your business, not only do you risk disruption to your water supply but you could lose revenue while the damage is being repaired. Don't let disaster creep up on you this winter.

Beat the freeze. Insulate your pipes and check that all lagging is secure.

## Don't wait. Insulate.
