

Site visit to determine actual on site connections

Guidance Notes

Northern Ireland Water holds the records of the location of public water mains and sewers in our Geographic Information Systems (GIS). Details of how to apply for a copy of our record drawings can be found at [Record Requests](#). Our drawings, however, will not show whether a property is connected to a public watermain or sewer.

Where written confirmation of connection to the public watermain or sewer is required for conveyancing purposes, Northern Ireland Water offer a service to visit the property to confirm whether it connects to the public watermain and sewer. Following completion of the site visit, we will issue the applicant with written confirmation of the property's connection status.

There is a cost for this service in line with our Scheme of Charges. On receipt of a completed application and application fee, Northern Ireland Water aims to carry out the site visit and issue written confirmation as to the property's connection status within 10 working days.

Applications and Enquiries

You must apply in writing using Application Form SVR

Enquiries should be addressed to;

Developer Services – Servicing Team
Northern Ireland Water
Ballykeel Office
188 Larne Road
Ballymena
Co Antrim, BT42 3HA
