

**REFERENCE**

2526033

**RELEASE DATE**

April 2025

**SUBJECT**

Can NI Water provide information on quantity of discharges from Drumbeg WwTW into the river Lagan.

**RESPONSE**

There are currently 32 Wastewater Pumping Stations (WwPSs) discharging to the River Lagan between Dromara and Drumbeg.

There is an interactive map of and more information about Storm Overflows available on NI Water's website at the links below, which may be of interest to you. However, for ease of reference, please find attached as Annex A, a list of those 32 storm overflows.
