

DROUGHT ORDER FOR A REDUCTION IN COMPENSATION FLOW UNDER THE WATER AND SEWERAGE SERVICES (NORTHERN IRELAND) ORDER 2006

Potential area affected by the DROUGHT ORDER

The drought order, which will apply for up to three months, will allow the Company to reduce the compensation flow from Altnahinch Impounding Reservoir to the River Bush from 3.2 MI/d to 1.28 MI/d.

In consultation with the Department of Agriculture, Environment and Rural Affairs, the Company has carried out comprehensive environmental assessments into the potential impact of the order, which include environmental monitoring and mitigation proposals.
