## Potential area affected by the DROUGHT ORDER

The drought order, which will apply for up to three months, will allow the Company to reduce the compensation flow from Spelga Impounding Reservoir to the Upper River Bann from 2.2 MI/d to 0.88 MI/d.

In consultation with the Department of Agriculture, Environment and Rural Affairs, the Company has carried out comprehensive environmental assessments into the potential impact of the order, which include environmental monitoring and mitigation proposals.
