

Wastewater Impact Assessment

Multi unit and Commercial developments

This form needs to be submitted as soon as is practicable and prior to any formal planning submission.

Please ensure completion of all mandatory sections in order to avoid return of your application.

Please refer to our guidance notes before completing your application.

PLEASE NOTE - The Impact Assessment can assist developers in understanding the potential costs and timescales involved in servicing a site prior to land acquisition or in advance of the submission of a planning application.

NI Water will endeavour to provide you with a development solution engineers report within 65 working days of receipt of a complete application. The Wastewater Impact Assessment process does not guarantee the applicant connection to the NI Water Wastewater network, nor can NI Water commit to specific construction timeframes.

All applications **MUST** include the following:

- A Site Location Plan 1:2500 map (LPS ACE map will suffice) with the site boundary clearly indicated in red and relative to an existing feature. Any other land owned by the applicant should be shown with a blue line around its boundaries, and if a public right of way exists within or adjoining the site, it should be outlined in green. The 12 figure OS Grid Reference (x,y coordinates) of the approximate mid-point of the site is also required to allow the location to be accessed quickly and to avoid confusion when viewing on our map server.
