Email

* Standard Industrial Classification Code (SIC Code) (If Applicable)

* 2. Connection location

Property Number

Street / Road

Town

County

Postcode

Please state the number of large diameter connections required to serve the site, excluding firefighting supplies;

* completion is mandatory

*** 3. Purpose of supply & property status once the connection has been made**

Please state the number of units by type that will be served by the new connection(s)

	New Property	Existing	Conversion	Replacement
Domestic				
Agricultural				
Church / Community Hall				
Club or Public House				
Fire Fighting Supply				
Hotel / Guest House				
Hospital / Nursing Home				
Industrial				
School				
Sports Facilities				
Other				

For 'Industrial' or 'Other', please provide specific details as to what the intended use of the supply will be

Charity Purposes (if the property or properties are to be used by a registered charity, please provide the registered charity number – the charity must be the primary occupant of the premises)

Listed Buildings (Please provide customs and excise certificate number if applying for zero VAT rating as an approved alteration to a listed building)

Note on Cross Border Supplies; if you are applying for a supply to serve a property in the Republic of Ireland from NI Water's network, the application must be made on behalf of the applicant by Irish Water. All bills will be invoiced to Irish Water.

*** 4. Building Water Supply**

Is a new supply of public water required for building purposes? (Please tick appropriate box) Yes No

Is it intended to use an existing metered public water supply? (Please tick the appropriate box) Yes No

If yes, please provide metered customer reference number, dates of construction and the address from which the building supply will be provided.

If a customer does not require a building supply then this must be stated and the reasons why. The charge is levied to take account of unmeasured water used during the course of construction. Please note that once paid, the building supply is non-refundable.

* completion is mandatory

*** 5. How will you discharge foul Sewage from the property/properties?**

Public Sewer (Please complete form 'New Sewer Connection Application' SC-A163 if the site is to remain private with the sewers not being offered to NI Water for consideration for adoption under Article 161 of the Water and Sewerage Services(NI) Order 2006).

Septic Tank Private Sewer Temporary Treatment Works
 No foul sewage

6a. Infrastructure Charges (Non-domestic properties only)

All new water connections are subject to a one off water, and where applicable, sewerage infrastructure charge. In some cases infrastructure charge credits may be applicable. In order to calculate the charge, please complete the following table.

Appliances	Number per unit / property		Loading units	Load (office use only)	
	Existing	Proposed		Existing	Proposed
WC Flushing cistern			2		
Wash basin in a house			1.5		
Wash basin elsewhere			3		
Bath (tap size 20mm)			10		
Bath (tap size >20mm)			22		
Shower			3		
Sink (tap size 15mm)			3		
Sink (tap size >15mm)			5		
Spray Tap			0.5		
Bidet			1.5		
Communal / commercial appliance			10		
Any other water fitting or outlet (including a tap but excluding a urinal or water softener)			3		
Official Use Only Total load					
Extra Loading Units					
No. of Infrastructure Charges					
Existing Services					

*** 6b. Infrastructure Charge Credits (to be completed by all applicants)**

In some cases infrastructure charge credits may be applicable. This will be the case if there was a previous supply to the site which has been disconnected in the last 5 years. It is the customer’s responsibility to provide us with the information to determine if any credits are applicable. If the information is not provided, then normal charges will apply.

Has the site being developed had a water supply within the last 5 years? Yes No

If yes, please state the type of property previously on this site (e.g. house, factory, etc.)

Please state the total number of separate water supplies connected to the watermain previously on site:

Approximate date of disconnection (if applicable):

Total number of separate water supplies to be connected to the public water main in the new development:

*** completion is mandatory**

*** 7. Existing Metered Supplies (if applicable)**

Are there existing metered connections on the site? Yes No

If yes, please provide the customer reference number

Is the new connection; in addition to the existing connection (s) Or, a replacement for the existing connection(s)

Please note that it is the duty of the applicant to advise NI Water if they require the removal of an existing meter once the new connection is completed. Failure to do so may result in the continuation of charges for a meter if it is not removed.

*** 8. Size of Connection Required**

Please select the size of your supply pipe

External diameter: 63mm 90mm 125mm 180mm Other (Please specify)

Please state the required flow rate in litres per second Max Min

A Standing Charge is levied on all metered non-domestic customers, the scale of the charge is related to the internal diameter of the customer's supply pipe as per the current Scheme of Charges – www.niwater.com/servicesfordevelopers.asp

9. Size of connection required for fire fighting element (if applicable)

If required, a separate supply will be provided for the sole purpose of fire fighting. This is not to be used for any other purpose.

If required, please specify the size of fire fighting supply required;

90mm Other (please specify size)

*** 10. Street Works Licence**

Under the Street Works (NI) Order 1995 a Street Works Licence is required by any person or organisation who wishes to place or retain apparatus in a street.

- NI Water is an approved Utility Contractor and CAN carry out the full service connection.
- NI Water, under the prescribed charges, will make the connection to the watermain, fit an external stopcock, a meter guardbox (if appropriate) and lay the associated underground service pipe.

Where will the proposed connection be completed?

Adopted Road / Street

Unadopted Road / Street

Private Road / Street

- Where the connection is located within an Adopted Road/Street the excavation and reinstatement MUST be completed by NI Water, the cost of this service will be included in the quotation.
- Where the connection is located in an Unadopted or Private Road / Street the developer MAY carry out the excavation and reinstatement.

11. Planning Service Details/ Building Control Details (if applicable)

Planning Application Ref

Date of Approval

Please attach a copy of the Planning Approval

Building Control Ref

Date of Approval

Type of Site Green Field Brown Field

If Brown Field what was previous use

*** completion is mandatory**

12. Water Regulations

Have Planning Service placed any conditions on site due to contaminated ground Yes No
If 'Yes', please provide details of the restrictions

Please note that where planning permission is required, NI Water will not process your application until we have been provided with a copy of the full planning permission.

If there will be water within your site not supplied by NI Water, please specify

Borewell Spring Water Rain Water Harvesting
Other (Please specify)

* 13. Declaration

I now apply to NI Water for a supply of water to the location(s) detailed in section 2. I accept responsibility for a one-off infrastructure charge, as well as charges payable for the connection(s) to which this application relates. Details of NI Water charges can be found on the current Scheme of Charges at www.niwater.com/servicesfordevelopers.asp.

Please tick to indicate that you have read and understood each point;

I/We agree to pay the water & sewerage Infrastructure Charge(s), if applicable, at the same time as the water connection charge.

I/We undertake to agree to abide by the terms and conditions of the Water Supply (Water Fittings) Regulations (NI) 2009.

I/We understand that any alterations made to this application must be declared to NI Water.

I/We have filled in all of the relevant sections of this form. The details I/we have given in this application are accurate.

I/We have read and understood the supporting guidance notes.

I/We understand and accept that as the named applicant that I/we will be responsible for any metered bills generated in relation to these connections from the time of connection. It will be my/our responsibility to ensure that the correct customer billing information is provided to Northern Ireland Water in respect of each of the metered accounts which are to be created as a result of this application. Currently all non-domestic customers are billed for the volume of water used via the installation of a NI Water meter. This meter will be installed shortly after the time of connection.

I/We understand that where the final postal address has not been provided, I/we as the applicant will be responsible for providing NI Water with the final postal address(es) as soon as it/they have been confirmed.

Before submitting your application please ensure that you have completed all relevant sections and the requirements below have been included.

Site Location Plan 1:1250 / 1:2500 map (LPS ACE map will suffice) with the preferred connection point and site boundary clearly indicated in red and relative to an existing feature. Any other land owned by the applicant should be shown with a blue line around its boundaries, and if a public right of way exists within or adjoining the site, it should be outlined in green. **Maps / layouts greater than A3 must be submitted in PDF format to waterline@niwater.com.**

a copy of the Planning Approval (*if applicable*). This must be provided with all applications relating to newly built or refurbished properties or any property where an alteration has been made.

Site Plan

A detailed plumbing schematic

Street Works Licence (*if applicable*)

Application fee (Please refer to our Scheme of Charges for the current application fee) (N.B. This fee is non-refundable once the connection has been processed).
